2 punti is communication and technology, commitment and passion, method and creativity, the beginning and end of a path designed by and for the customer . Created to support customers in the processes of communication, marketing and web based activities we offer a path that combines creativity and methodology.

We are communication and web technologies society with multi-disciplinary skills whose partners have more than 10 years of experience in the fields of:
- communication (brand new, re-branding, corporate identity, direct mail, brochures ...)
- web (creation and management sites, portals, communities, user loyalty strategies, newsletters, banners, placement),

- marketing analysis (identity, image, SWOT Analisis ...)
- web technologies (PHP, MySQL databases, Flash, Action Script, CSS),
- designing and developing web based applications and platforms,
- APP development for mobile devices. Vision

Transform our passions into job.

Mission

Method and creativity, communication and technology, training and learning, beginning and end of a route designed with and for the customer.

I soci

Jacopo Sagramoso: founding member of 2 punti. After various experiences in the web world I wanted to create a company able to offer real value to customers, deepening more and more web technologies, usability, marketing and communication

My Linkedin profile: http://it.linkedin.com/in/jacoposagramoso

Marco Biagioni: expert in software design is 2 punti partner since 2009. My 'mission' is to develop high-level software and I'm lucky that my passion is my job.
